Summary

Full Stack Web Developer with a background in Industrial Design and customer service. Known for achieving deadlines with clean code and mobile first designs. Undertook the leadership position for a group project building a full stack application during his studies at Monash's Coding Boot Camp. Strengths in teamwork, planning and problem-solving.

Technical Skills

HTML5, CSS3, Javascript, Bootstrap, Node.js, MySQL, MongoDB, Express and Handlebars.js.

Design thinking, design process, product and service visualisation, user interface and user experience design.

Projects

Quiz Me | <https://github.com/andrew60199/Quiz-Me>

- **Overview:** Quiz Me is an online quiz application where users can answer a random question from the database or create a question for others to answer! Quizzes won't repeat and users can see their statistics within their profile.
- **Role:** Project leader and back end developer.
- **Tools / languages:** HTML / Express Handlebars, CSS, Javascript, Express, MySQL, Sequelize, Express Sessions, BCrypt, Dotenv, Chart.js.

Tech Blog | <https://github.com/andrew60199/tech-blog-01> | <https://polar-reaches-81456.herokuapp.com/>

- **Overview:** An application where users can view and comment on blog posts in regards to technology. The clean custom CSS UI is held up by a strong backend and together they make for a seamless experience when navigating through the app.
- **Role:** Solo project, Full stack developer
- **Tools / languages:** HTML / Express Handlebars, CSS, Javascript, Express, MySQL, Sequelize, Express Sessions, BCrypt, Dotenv

- **Overview:** Cityspire is a website designed for people to find their dream destination. Search popular cities and read the first 1200 characters of the locations respective Wikipedia article while visualising it Google's powerful map. With other readily available APIs also linked to the search result page.
 - **Role:** Group project, Front end developer
 - **Tools / languages:** HTML, CSS, Javascript, jQuery, APIs (Google Maps and Wikipedia)
-

Experience

Director REMM DESIGNS	2020 - Current Melbourne, Aus
---------------------------------	----------------------------------

During the pandemic I explored building my own design company as a side project. With a focus on furthering projects created while studying. By doing so I learned key leadership and business knowledge that I will be able to apply to any position moving forward. Being pushed out of my comfort zone I gained proficiency in attention to detail, understanding the importance of a team and finally, I demonstrated independence on figuring things out when there was no one to ask for help.

Produce Team Member Woolworths Supermarkets	2014 - Current Melbourne, Aus
---	----------------------------------

Working as a fruit and veg team member for nine years, I have developed a strong foundation of skills that I can transfer to my next employment. Being proactive and having a strong work ethic ensures I can provide a meaningful contribution to the project. By working both independently and collaboratively in my department, I have been able to show initiative and therefore establish myself as a valued and loyal employee.

Key accomplishments:

- Trained new employees
 - Daily stock / inventory counting
 - Used to a fast paced environment in a store that does over \$1m in weekly sales.
-

Education

Certificate in Full Stack Web Development - Monash University Boot Camps, Vic, Aus.
Due to complete in February 2023

Bachelor of Design (Industrial Design)(Honours) - Swinburne University of Technology, Vic, Aus.
Completed in 2021
